EDUCATION

Bachelor's Degree in Information and Communication Technology, University of Rwanda

2016

A2 Certificate in Computer Science, ESA Birambo

2011

TECHNICAL SKILLS

- Software Development (PHP, JavaScript, Java, Python)
- Database Management (SQL, SQL Server)
- Web Development
- Computer Networking & Security
- System Analysis & Design
- IT Support & Maintenance

SUMMARY

Dedicated ICT Trainer and IT Technician with over 8 years of experience in software development, ICT education, and technical support. Skilled in programming, database systems, and practical project mentorship. Passionate about building scalable digital learning solutions and advancing expertise in data engineering and AI-powered education technologies.

WORK EXPERIENCE

ICT Trainer – Software Development May 2017 – Present

Saint Kizito Save TSS, Rwanda (Full-time)

- Train over 120 students annually in PHP, JavaScript, Python, Data Structures, and Algorithms
- Teach database systems, system design principles, and programming logic to support student problem-solving
- Guide students in practical system development projects, leading to improved project completion rates
- Strengthened curriculum delivery, resulting in higher student pass rates in practical ICT assessments

IT Technician (Part-time) Oct 2017 – Dec 2019

Wise Tech Ltd, Rwanda (Part-time)

- Installed and maintained computer systems and hardware, reducing system downtime by 30%
- Provided technical support and troubleshooting for staff and clients, improving daily operations

- MS Office (Word, Excel, PowerPoint)
- Data Engineering Fundamentals
- Configured small office networks and supported system security and performance
- Assisted in database maintenance, ensuring data integrity and availability

LANGUAGES

- Kinyarwanda: Native
- English: Professional Working Proficiency
- French: Intermediate Proficiency

PROJECT

Skill Tree TVET Learning Platform (Founder & Developer – Ongoing): (<http://skilltree.free.nf/>)

Developing an AI-powered digital learning platform designed to support competency-based TVET education and improve student learning outcomes.

Key Features:

- AI Tutor Assistant acting as a teacher, mentor, and learning coach
- AI-generated quizzes, assessments, and exams
- Self-testing system enabling students to practice topics independently
- Lesson and assessment preparation support for trainers
- Student progress tracking and performance monitoring
- Internship and industry connection support to help students find industrial attachments and workplace learning opportunities
- Practical “Learn by Doing” learning approach integration
- Digital support for vocational and technical education delivery

Technologies Used:

PHP, JavaScript, AJAX, HTML, CSS, MySQL
